

## Policy

Job sharing, which allows for two persons to share the equivalent assignment or position of one of the persons, may happen subject to conditions established by regulations. Students' needs are the central consideration when a job share is considered.

## Procedures

1. The employed individuals wishing to job share should develop a proposal in writing to the Principal outlining the request to be considered including the names of the persons who will share the position.
2. If the Principal agrees with proposal, it will be reviewed with the Superintendent first and then brought to the School Council for ratification.
